BUILD YOUR PRACTICE. SET YOUR PRICE. KEEP YOUR PAY.

Pricing reviewed July 31, 2026. True Taxes Corp price guarantee means \$1,250 per annual software term for the partner's first two consecutive annual terms; it is not a one-time \$1,250 payment covering both years. Competitor figures are current advertised prices from official provider websites and may change. Only single-user or standard publicly advertised plans are shown; TaxAct's pay-per-return plans are excluded because its official page identifies them as multi-user. Drake Tax 1040 single-user includes unlimited individual returns and charges \$74.99 for each business return. TaxAct 1040 Bundle single-user includes unlimited individual returns but no business returns. TaxSlayer does not publish a single-user or pay-per-return designation on its pricing page; Pro Classic is shown as the lower-cost public option and does not include the corporate business suite. TaxSlayer prices shown are limited-time new-customer offers; displayed regular prices are \$1,695 for Premium and \$1,395 for Classic. True Taxes Corp's separate \$75 service bureau fee applies to each filed return and is intended to be paid by the client. 'Unlimited' and all program features remain subject to applicable software, EFIN, licensing, bank-product, platform, and True Taxes Corp program terms. Logos and trademarks belong to their respective owners; competitor branding is shown for identification only. True Taxes Corp is not affiliated with the compared providers.

TRUE TAXES PARTNER ADVANTAGES

More Than Tax Software. A Complete Partner Platform.
